About the Series

The CCC series was developed by Buffalo Hearing & Speech Center in 2002 to assist Western New York Speech-Language Pathologists and Audiologists in meeting the requirements of the New York State Continuing Competency Law and ASHA certification requirements. Presentations emphasize hands-on, therapy-focused techniques. This series is presented by practicing clinicians for clinicians — low on lecture and high on practical applications. Please join us for our CCC workshops that are being offered at a central location, during convenient after-work hours, and at a reasonable cost.
